## EXPERIENCE

### Oracle, Senior Product Designer

Redwood City, May 2019 — Present

Shipped next-gen expenses experience across web, mobile, email and chat to help employees get reimbursed easily and fast. Worked closely with product, engineering, and research team from early concepts to MVP build of submitter UX, approver UX, cash advances, and per diem.

Designed and delivered a 0-to-1 project management and reporting tool that improves the customer satisfaction score from 2.6 to 4.5.

Visioned the north star of corporate finance with automated, integrated, intelligent accounting infrastructure. Defined the future job roles and workflow through over 60 hours user research.

### NYU Information Technology, Product Designer

New York, Sep 2018 — Mar 2019

Launched a web application to digitalize club searching for students of all abilities. It grew to 13K users in the first week of its launch and had 60K active users/month by the first year.

Designed and delivered a streamlined account setting experience used by all students, faculty, and admins.

### The Wall Street Journal, Mobile Product Intern

New York, June 2018 — Aug 2018

Conducted in-depth research on the accessibility of WSJ app and prioritized potential improvement.

### Mastercard, UI/UX Design Intern

Singapore, May 2016 — Aug 2016

Created high-fidelity interfaces and interactive prototypes for an authentication platform.
